Lakeshore Imaging Centre

Patient name: Bartholomew Okonkwo-Reyes
Patient ID: NDV2-80917
Date of birth: 02/11/1961 (2 November 1961)
Sex: Male
Exam date: 30 August 2026
Referring physician: Dr. Sunita Raghavan
Accession number: ACC-NDV2-3305

MRI Lumbar Spine Report

Clinical history: low back pain radiating to the left leg for six weeks.

Technique: sagittal T1, T2 and STIR, axial T2 from L1 to S1.

Findings: broad-based disc protrusion at L4-L5 with mild narrowing of the left lateral recess and contact with the traversing left L5 nerve root. Other levels are unremarkable. Normal conus.

Impression: L4-L5 left paracentral disc protrusion contacting the left L5 nerve root.

Reported by Dr. T. Ferreira, Consultant Radiologist, Lakeshore Imaging Centre.
